Working with your adjuster

Your insurance company decides what your policy covers. Our job is to make sure the adjuster sees **all** of the damage — with photos, measurements and a detailed estimate. The adjuster's first estimate is a starting point; if we find damage that was missed, we document it and submit it as a supplement. You get copies of what we send and daily photo updates you and your adjuster can view.

Honest about your deductible

We never ask you to inflate or skip your deductible, and we never offer to "cover" it. Your deductible is your share under your policy; your out-of-pocket cost is limited to it unless you approve extra work in writing. A contractor offering to waive it is asking you to misrepresent your claim — a red flag.

GOOD TO KNOW

Questions we hear most

Do I have to use the contractor my insurer recommends?
You choose who repairs your home. We work with all major insurance carriers.

Who gets the insurance check?
Payments are typically made out to you (and your mortgage company, if you have one). Your Work Authorization explains how claim payments are directed to GrayCo for the work.

What is recoverable depreciation?
Many policies hold back part of the payment until the work is complete. Your signed Certificate of Completion lets your carrier release it.

What if more damage is found?
We stop, photograph it, tell you right away and submit it to your carrier. Nothing extra proceeds without approval.

Water damage — how long to dry out?
Typically 1–3 days of emergency mitigation and 3–5 days of monitored drying, with daily moisture readings, before rebuild starts.

What isn't covered?
Items outside your policy, pre-existing damage and contents are handled separately. We'll be upfront about what's in and out of the scope.

Written warranty

Workmanship warranty: 5 years from completion, plus manufacturer warranties on materials. Your warranty certificate is issued at closeout. To file a claim: (901) 585-0944 or office@grayco-cs.com — we respond within 24 hours.
