GRAYCO CONSTRUCTION SERVICES

WHAT TO EXPECT

Your first day on site

A smooth start makes for a smooth project. Here is how to get ready, what happens on Day 1, and who to call.

Before we arrive — your checklist

- ✓ Clear the work area; move valuables and fragile items
- ✓ Plan for pets and kids to stay away from the work area
- ✓ Tell us about parking, gate codes, alarms and access
- ✓ Point out anything you want protected — landscaping, fixtures, finishes
- ✓ Finalize your selections (they must be set before rough-in)
- ✓ Let us know about HOA or building-management rules
- ✓ Have your questions ready for the walkthrough

Every day after Day 1

- **Work hours:** typically Mon–Fri, 8 am – 5 pm, unless your contract says otherwise (commercial: per building rules).
- **Clean-up:** the site is cleaned and secured at the end of every day.
- **Photos:** daily progress photos on CompanyCam — view your project anytime.
- **Communication:** same-day response to calls, texts and emails; immediate notice of any schedule change.
- **Checks & Balances sheet:** stays on site so you can see each stage checked and initialed.

What happens on Day 1

1. **Your PM introduces the team**
   You'll meet your Project Manager — your single point of contact for the whole job.
2. **Walkthrough of the scope**
   We walk the work area together and confirm the scope, schedule and work hours.
3. **Existing conditions photographed**
   Before anything is touched we document the area, so there is a clear before-and-after record.
4. **Set-up & protection**
   Safety set-up, protection of the areas we discussed, and placement of materials and the dumpster (if needed).
5. **Checks & Balances sheet posted**
   Pre-start items are checked, dated and initialed — then work begins.

Changes & surprises

Want to change something? We write a **Change Order** and get your signature **before** that work starts. If we find a hidden condition (rot, mold, structural), we stop, photograph it and talk with you about options first.

Who to call

PROJECT MANAGER _____

PM CELL _____

Office: (901) 585-0944 · office@grayco-cs.com
PM hours: Mon–Sat, 7 am – 6 pm
After-hours emergency: (901) 692-7255

Safety

Please treat the work area as off-limits while crews are working. Our crews follow OSHA-compliant safety practices, including fall protection on roofs.

Permits & inspections

GrayCo handles permit applications unless your contract says otherwise. Your PM coordinates required inspections and records them on your Checks & Balances sheet.

Payments

Progress payments are tied to the milestones in your contract. On insurance jobs your share is your deductible unless you approve extra work. Final payment follows the final walkthrough.
